

RISHI GADHIA

EDUCATION

University of Central Florida

August 2020 - May 2024

Computer Science B.S.

GPA: 3.4

Relevant Courses: Algorithms for Machine Learning, Discrete Computational Structures, Computer Science II, Artificial Intelligence, Object-Oriented Software Development, Databases, Parallel Computing, Systems Software

EXPERIENCE

Software Engineer | Deloitte

September 2024 – Present

- Implemented core business logic using tools such as **Java/Spring** and DSLs such as Oracle Policy Modeling, greatly reducing technical debt and improving code maintainability
- Developed sleek, responsive UI/UX using **React.js** and a proprietary **JavaScript** framework for web apps used by millions of US citizens
- Diagnosed and resolved critical production defects, enabling 100% system uptime and on-schedule deployments

Full-Stack Developer | University of Central Florida

September 2023 – May 2024

- Enhanced a legacy application supporting over 200,000 users by creating **CI/CD** pipelines to automate builds and deployments
- Built cross-platform UI/UX components for web and mobile applications using **React Native**
- Resolved 40+ defects within the **frontend** and **backend** architecture, improving system stability and reliability

Sales Associate | Advanced Data Associates

June 2021 - July 2021

- Worked during the summer of my freshman year, where I was tasked with handling daily calls and directing customers to products from our business partners
- I successfully directed hundreds of customers and was considered a top salesman by my boss during this time

Cheer Team Leader | Empath Health

July 2018 - March 2020

- I led a team to visit and cheer the elderly under an Empath Health volunteering group

PERSONAL PROJECTS

Portfolio Website | TailwindCSS, JavaScript, React, Next.js

- Designed a **responsive** interactive website that displays my accomplishments and goals as a software developer, viewable at [Rishi Gadhia's Portfolio](#)

Game Review | Express.js, MongoDB, React, Node.js, Android Studio, Kotlin

- Collaborated with a team of six to create a web and native mobile application using the **MERN** stack to allow users to sign up and review their favorite games
- Contributed by writing **REST APIs** and helped build the backend architecture

Money Manager | React Native, TypeScript, Expo

- Collaborated with a team of four to develop an application that allows users to visualize and note their finances
- Built a **cross-platform** application with a customizable UI and won KnightHacks club competition

SKILLS

Languages: Python, JavaScript, Go, Java, C/C++, Kotlin

Frameworks & Libraries: React, Next.js, TailwindCSS, Express.js, Flask, Spring

Tools: Git, SVN, CI/CD, Docker, Linux, Android Studio, Tmux

Databases: DuckDB, SQLite3, Oracle DB, MongoDB, Redis

Certifications: AWS Cloud Practitioner, Kaggle Machine Learning, Git Workflows
